## SUMMARY

I'm a web developer who is passionate about creating impactful digital experiences. I am particularly interested in user interface development using React and React Native. I'm enthusiastic about using cutting-edge technology, and love the challenge of picking up new languages and frameworks.

## EXPERIENCE

### Web Development Intern - Sightworks
*Summer 2017*

- ❏ Created interactive google analytics dashboards using Chart.js for clients such as AllState and IKEA.
- ❏ Developed a web application to allow developers and web administrators to create custom dashboards using google analytics and data collected by the Sightworks development platform, DigitalXE.
- ❏ Wrote documentation for the DigitalXE platform to assist developers navigating the cutting-edge development tool.

### Junior UX Designer - Hack Oregon
*Fall 2016 - Spring 2017*

- ❏ Worked with lead designers, developers, and data scientists to produce 9 interactive data visualizations about homelessness in Portland.
- ❏ Used modern tools and standards to create user persona, wireframes, and conduct user testing.
- ❏ Presented the data visualization product in front of hundreds (including several elected officials) at OMSI.

### Manager & Marketing - Rose City Coffee Company
*Spring 2015 - Spring 2017*

- ❏ Modernized social media strategy that increased follower engagement by 500%, and increased followership from approximately 200 followers (December 2015) to over 2,300 (March 2017).
- ❏ Hired and coached new employees as the company grew 4 employees (spring 2016) to 11 (spring 2017).
- ❏ Designed company assets such as loyalty cards, coupons, and t-shirts.
- ❏ Developed procedure documentation and barista manual.

## EDUCATION

### Epicodus
*February 2017 - Present*
Web & Mobile Development

### Hack Univeristy
*July 2016 - Present*
React, UX Design, Infographics

### Treehouse
*July 2015 - February 2017*
Web Design & Development

### Lewis & Clark College
*August 2011 - August 2014*
B. A. Economics '14 (Honors)

## SKILLS

| | |
|---|---|
| JavaScript | CSS/SCSS/Less |
| Java/Android | Data Visualization |
| React | UX Design |
| Git | Doc Writing |

## PROJECTS

**Unsheltered** (UX Design) Open source data visualizations about homelessness in Portland. I used Figma to create wireframes and inVision for prototyping.

**Run The Numbers** (D3) I led a team interested in learning the D3 library as we created a series of fun, interactive and informative graphs about Portland.

**Clicksand** (Java, psql) A find-and-click game that tracks the amount of time it takes the user to solve puzzles and tracks high scores.
